Backend: Node.js, Express.js, MongoDB Native Android: Kotlin, Android SDK, Jetpack
Compose (Currently Learning) Cross-Platform: Flutter, Dart (Explored)

WORK EXPERIENCE

React Native Developer

April 2025 - August 2026

Find A Professional NZ · Remote, New Zealand

Developed FindProNZ for Android and iOS, where customers book local services and professionals create an account and register services.
Implemented service category, professional profile, and booking screens using React Native, React Navigation, and Redux.
Implemented professional signup, profile setup, and service registration.
Integrated REST APIs, resolved bugs, and released builds on the Google Play Store and Apple App Store.

React Native Developer

January 2022 - March 2025

Cyber Impulse Software Solutions

Developed Android and iOS apps from project setup through REST API integration, testing, and store release.
Implemented DropDose for medicine search, prescription upload, orders, and Stripe payments.
Developed Bodify and Bomi for workout tracking and progress, and InjazRental for daily, weekly, and monthly vehicle booking.
Developed BloodLinks for blood requests, donor search, chat, and Google Maps, and KMMP RPE for player and training management. KMMP RPE is live on the Google Play Store and Apple App Store.

PROJECTS

FindProNZ

Service booking app · [Play Store](#)

Developed a React Native service booking app for Android and iOS where customers find a service and book it, and professionals create an account and register services.

Implemented profile, booking, and service registration screens with REST APIs and Redux.

Parkbay

Car and bike slot booking · [Play Store](#)

Optimized a car and bike parking app so users can book a slot.

Fixed booking bugs and improved app stability.

PlayPalHub

Ground booking · [Play Store](#)

Developed a ground booking app where grounds are listed and users book a ground.

Implemented ground listing and booking screens in React Native.

The Halal Care

Restaurant app, Dubai · [Play Store](#)

Developed a Dubai restaurant app that shows restaurants from the user's current location, sorted by rating.

Managed delivery features, feature development, and Google Play Store releases.

ADDITIONAL EXPERIENCE

Family Business Management · Self-Employed

December 2012 - December 2021

Ran day-to-day operations of a family tiffin service, including customers, orders, vendors, and daily business operations.

EDUCATION

Malwa Institute of Science and Technology, RGPV, Indore

2008 - December 2012

Bachelor of Engineering, Information Technology · 66%
